MATERIAL

Bond is available in solid oak, solid walnut and solid ash. For detailed measurements, configurations and inspiration, download the Bond Product Folder above.

Bond Color

DESIGNED WITH MAIN

When flexibility is as important as durability.

Function as important as appearance.

Time, standards, and notions are transformative. Bond is like the chameleon, capable to adapt to any transition that we may go through. To enhance Bond's already built-in metamorphic characteristics, we now add color. An important extension of a design piece that transcends time, space, and style. The first step is an elaboration of the source of all colors: the primary colors. Who knows what will be the next?

Colors play an important role in Fogia's DNA. To enhance the visual impression, and to evoke feelings. The colors of the BOND collection can look both sober and vibrant and work as a perfect complement to the pure, simple yet elegant shape. The color range enhances Bond's ability to adapt to any environment, either by using just one color, combining colors, or adding fresh splashes of color to any of the wood finish alternatives.

Fogia is an award-winning Swedish design company and furniture producer, collaborating with some of the most progressive contemporary designers working today. With roots in the Scandinavian design aesthetic, its products are handmade to stringent standards of quality and construction, using high-end materials and craftsmanship. Graceful elegance and purposeful function are realised through a genuine knowledge of craft and construction.
