PON - JASPER MORRISON

Pon - 1280
Side table
W:,
H: 36 cm, Ø: 35 cm
Weight: 5 kg, Cbm: 0m³

Pon - 1285
Side table
W:,
H: 41 cm, Ø: 40 cm
Weight: 5,5 kg, Cbm: 0m³

Pon - 1290
Side table
W:,
H: 46 cm, Ø: 45 cm
Weight: 7 kg, Cbm: 0m³

DESCRIPTION

Pon is a series of solid wood side tables in different sizes that are both very stable, versatile and which can be used as either stand-alone furniture or combined in different heights. The smaller Pon tables are modest in size, but large enough for a book, a glass or a tray.

CONSTRUCTION

Made in solid wood.

WOODS

Black lacquered, Oak oil treated clear, Oak smoked and oiled, Oak soap treated, Oak standard lacquer, Oak white oiled

GUA R A N T E E

Fredericia Furniture A/S offers a five-year guarantee against manufacturing defects in standard products (materials and construction). Wear and damage to covers, surface treatment, inappropriate use and the like are not covered by the warranty.

COLOUR WORLDS BY FREDERICIA

*To help you navigate the vast swathes of fabrics,
leathers and colours available, Fredericia has
curated a refined materials toolbox to help make
your choices as simple as possible.*

Choosing the right upholstery to complement your interior can be quite a journey. The choice of fabric, leather and colour is crucial in the expression of each furniture piece and the role it plays in the interior – whether the style evokes classic restraint, contemporary boldness or daring creativity.

Fredericia's timeless mix of soft, natural shades rooted in Scandinavian nature stands outside of fast-moving trends with a long-lasting style that reflects the spirit of your time and place.

The fabrics produce a variety of tactile experiences that gravitate from heavy to light, from delicate to bold, and from calm to lively - awakening the senses in the ambience you want to create.

Dive into Fredericia's world of colours and create your own unique piece of furniture. 

OAK SOAP

About Soap treatment is a finish that leaves the surface as raw and natural as possible. The natural oils of the soap gently seal the wood and gives it some stain resistance, however a new soap treatment must be applied from time to time to maintain the appearance. Soaped oak is light when new and darkens over time. Oak has a relatively open surface with a visible grain structure, where beautiful flecking is an effect that can naturally occur in solid oak.

OAK OILED

About Oil treatment enhances the warm tones of oak. The oil used is a clear, natural oil with beeswax. This seals the surface to make it water and stain resistant, thus minimising any visible marks. The oil is absorbed into the wood and creates a smooth surface with a silky touch. Over time, the oil will dry out and new oil must be applied to avoid a dull surface. Oak has a relatively open surface with a visible grain structure. Beautiful flecking is an effect that can naturally occur in solid oak.

OAK LACQUERED

About European oak. A light lacquer treatment partially fills the grain, so the wood structure can be seen on the surface. Oak has a relatively open surface with a visible grain structure. This light lacquer treatment is gentler than a dense lacquer, consequently scratches will not be easily exposed. The wood itself has a nice tactile feel and the natural ageing over time will be more beautiful. A delicate white pigment is added to the lacquer to maintain the light appearance of the oak. Flecking is a lovely effect that can naturally occur in solid oak.

SMOKED OAK, OILED

About European oak. Smoked oak with oil treatment is only used for solid wood. The oak is fumed in special steam that darkens the surface and makes the colour browner. Different parts of the solid oak absorb the fume to different degrees and colour differences will naturally occur. After fuming, the oil treatment further enhances the warm tones of the oak. The oil used is a clear, natural oil with beeswax. This seals the surface to make it water and stain resistant, thus minimising any visible marks. Over time, the oil will dry out and new oil must be applied to avoid a dull surface. Beautiful flecking is an effect that can naturally occur in solid oak.

SMOKED OAK STAINED, LACQUERED

About European oak. Smoked oak stained is a stain treatment that resembles the colour of smoked oak. It is used in furniture where the natural variation in wood requires a more harmonious result than what fumed smoked oak can offer. Frederica uses a stain solution that enhances the warm tones of the oak and reveals the natural wood structure. After staining, the wood is covered with a delicate layer of lacquer. As a result, smoked oak stained is easy to maintain and able to resist stains and water quite well.

GREY OAK STAINED, LACQUERED

About European oak. A stain treatment that reveals the wood structure whilst adding grey tones to the surface. After staining, the wood is covered with a delicate layer of lacquer. As a result, grey oak stained is easy to maintain and able to resist stains and water quite well.

LIGHT GREY OAK STAINED, LACQUERED

About European oak. A stain treatment that reveals the wood structure whilst adding light grey tones to the surface. After staining, the wood is covered with a delicate layer of lacquer. As a result, light grey oak stained is easy to maintain and able to resist stains and water quite well.

BLACK LACQUERED

About Black lacquer in RAL 9005 colour. After the black lacquer is applied to oak or ash, the grain structure of both will be visible. Applied to beech, the surface structure becomes more harmonious, where the visible grain structure is limited.
