

# Big Sur

SIMON KLENELL OCH KRISTOFFER SUNDIN

BIG SUR är ett elegant och nyskapande soffbord där glasskivorna som bordet består av går att få i fyra olika färger. Genom att mixa och kombinera olika färger på topp- och botten-skiva får bordets skugga olika överlappande nyanser. De många kombinationerna gör det lätt att skapa intressanta variationer. BIG SUR är ett område i Kalifornien som erbjuder dramatiska vyer och drömmen om ett fritt liv (då det även huserar den populära Highway 1).

Bordet fyller ett behov på marknaden för större soffbord som passar både i större hus för hela sittgrupper, men också som vardagsbord i mindre lägenheter. BIG SUR är ett samarbete mellan glasformgivaren SIMON KLENELL och möbelsnickaren KRISTOFFER SUNDIN. Fogias skickliga hantverkare har sedan fått de komplicerade lösningar att verka enkla.

*Big Sur is an elegant and innovative coffee table made up of glass sheets available in four different colours. Mixing and matching the colours on the top and bottom layer means the table's shadow casts different shades. The numerous possible combinations make it easy to create interesting variations. Big Sur is an area of California with dramatic views, epitomising the dream of a free and wonderful life (and the reason why so many people choose to drive the popular Highway 1).*

*The table fills a gap in the market for large, elegant coffee tables that not only fit in larger homes, where they are surrounded by an entire seating group, but also work as an everyday table in smaller apartments. The table is the result of a collaboration between glass designer Simon Klenell, a wood expert Kristoffer Sundin. Fogia's skilled craftspeople have added their expertise to make complicated solutions look easy.*

## Big Sur Low

DESIGNED WITH SIMON KLENELL  
AND KRISTOFFER SUNDIN

Big Sur Low is a confident, elegant sofa table that enhances any space. The clean and well thought out design combines its main material glass with wood, to create an exciting contrasting effect. The transparency of the glass allows the table to »come alive« from its surroundings and create a light appearance despite its generous size.

The design with the contrasting combination of glass and wood, is inspired by Big Sur, an area of California with dramatic views and striking contrasts between the blue ocean water and the rocky mountain cliffs. The design expression is simplistic and stripped from layers and elements and flirts with modern American architecture.

Big Sur Low is the result of a collaboration between glass designer Simon Klenell, and wood expert Kristoffer Sundin. Fogia's skilled craftspeople have added their expertise to make complicated solutions look easy.

*"The beauty of Big Sur Low is the exciting contrast of glass meeting wood, and how the transparency of the glass allows the table to come alive by its surroundings."*
