

# HEY-SIGN

## Innovation in Filz

**Innovation in Filz.** Schon seit über 17 Jahren sorgt HEY-SIGN für ein grandioses Comeback des traditionellen Materials Filz.

Die positiven Eigenschaften dieses nachwachsenden Rohstoffs wie Hautfreundlichkeit, Luftdurchlässigkeit und Temperaturbeständigkeit sind seit Urzeiten bekannt, jedoch erst die mehrfach ausgezeichneten Designs sowie eine bis dahin unerreichte Vielfalt in Formen und Farben verschaffen den Filzprodukten von HEY-SIGN ihre Einzigartigkeit.

Sowohl die Filzherstellung als auch die Fertigung aller Produkte ist „Made in Germany“, die Endfertigung der Produkte sogar „Handmade“. Der verwendete Filz besteht zu 100% aus reiner Schurwolle ohne Zusätze von Chemie oder recycelten Textilien, was durch das bekannte Wollsiegel dokumentiert wird. HEY-SIGN ist übrigens die erste und einzige Filzmanufaktur, deren Produkte nach den strengen Richtlinien der „The Woolmark Company“ zertifiziert wurden.

Mit dem vorliegenden Katalog möchten wir Ihnen nun einen Überblick über unser breitgefächertes Sortiment an hochwertigen Filzprodukten geben. Weitere Informationen zu Produkten, Farben und Services finden Sie unter [wwwHEY-SIGN.de](http://wwwHEY-SIGN.de).

**Innovation in felt.** For more than 17 years already, HEY-SIGN cares for an overwhelming comeback of the traditional material felt.

The positive properties of this renewable raw material as kindness to the skin, air permeability and temperature constancy are known from time immemorial but only the designs repeatedly awarded by numerous institutions as well as the so far unmatched variety of shapes and colours give all HEY-SIGN products their uniqueness.

The production of felt as well as the creation of all products is “Made in Germany”. The finishing of the products is even handmade. HEY-SIGN felt consists to 100% of pure new wool without any chemical additives or recycled textiles. This high quality demand is documented by the well-known WOOLMARK label. HEY-SIGN is, by the way, the one and only felt manufacturer whose products were certified according to the strict guidelines of “The Woolmark Company”.

With this catalogue at hand, we now wish to give you an overview of our wide-ranging assortment of high-quality felt products. For additional information about our products, colours and services, please have a look at our website [wwwHEY-SIGN.de](http://wwwHEY-SIGN.de).

AR Diese Farben sind in der Filzstärke 5 mm auch mit Antirutsch lieferbar. Weitere Farben mit AR per Rollenware ab ca. 20 lfm.

2/3/5/8 felt thickness in mm.

\* Available while stocks last.

AR These colours are in 5 mm also available with anti-slip AR per roll, approx. 20 lm.

**Dear customer,**

Wool felt from HEY-SIGN consists of 100% pure new wool without chemical additives or recycled textiles which is documented by the well-known Woolmark label.

As to wash & care – wool felt is an unproblematic material. The proportion of natural wool fat and the density of the material prohibit a quick penetration of dirt.

On the following pages we would like to give you – assorted according to product segments – some precious hints for the wash & care of our products.

REINE SCHURWOLLE

PURE NEW WOOL

WOOLMARK

## **Cushions:**

Generally these are manufactured in the 2 mm material and thus should only be dry-cleaned. The cover of all cushions can be taken off – either by a velcro-fastener (e.g. Duo or Uno), a zipper (e.g. Lily), or by stacking (e.g. Pai).

## **Carpets:**

### **Wash & care:**

For the normal wash & care it is sufficient to regularly Hoover the carpet with a good vacuum cleaner which, at its best, consists of rotating brushes.

As the surface of our wool felt is – contrary to velour, tufted or knotted carpets – very smooth and a deep penetration of dirt is hardly possible; dirt sits only on the surface and can easily be removed.

### **Cleaning:**

Due to its size, it is normally rather exhausting to clean carpets yourself – which is, however, generally possible. Should the carpet have a grey tone over the course of the years as a dirt film has appeared on the whole surface, the cleaning can be done by yourself by using a soft brush of natural fibres and best the detergents of the company Jeikner. Please also take note of

the individual care instructions of the detergents you make use of.

If you prefer to have it cleaned, you should search for a qualified carpet cleaner. A first step could be to call the company of Jeikner who can make the contact to skilled partner companies.

### **Spot remove:**

We can recommend the detergents of the company of Jeikner as they are very effective and clean softly but fat-replenishing at the same time.

### **Room dividers:**

They can be hoovered to remove possible dust. For removing stains you can use the spot remover of the company Jeikner. You can, of course, also remove the covering of the frame and have it cleaned.

### **Bags:**

Felt bags of 3 and 5 mm material should only be washed by hand which means: careful brushing under the shower by using wool washing liquid or a shampoo.

Leather parts should preferably not get wet.
