# Klip – The Essence of Mobility and Function

The new Klip Lamp collection is designed with function in mind. Klip is an elegant and modern collection of wall lamps and clip on lamps that will fit nicely into the smaller nooks, where light is much needed, but space is limited. Adorn the hallway, bookshelf, or bedside with this modern and adaptable lamp collection.

The Klip collection is characterized by its sharp and clean geometrical design cues and its flexibility. Klip consists of a base and a conical shade, which are held together by respectively a 350° and 360° turning joint, making it possible to adjust the light in any given direction. The lamp's mobility allows it to change between direct and indirect light, making it perfect for both the workplace, as bedside lighting, and as a pleasant, atmospheric light in the living room.

The Klip Lamp has an elegant clip that can easily be attached to any surface by tightening the small knob at the bottom. The clip is equipped with discreet silicone pads, ensuring soft and gentle attachment. The Klip Lamp can therefore easily be moved around and adjusted to the desired setting.

The minimalist design comes in several different color variations. Make a bold statement with the electric green or simply let Klip blend elegantly in with the existing décor by choosing the more subtle colors of warm grey, white and black. The color palette accommodates any preference. Klip is a versatile light for everyday use in both domestic and commercial settings, such as hotel rooms, lobbies, or restaurants.
