Every detail matters

THE RIGHT TOOLS FOR THE RIGHT JOB

We cherish the virtues of traditional craftsmanship
and we do things properly. Every Montana module is created from
scratch and built with pride.

Made in Denmark

All our products are developed and made in Denmark. We have over 160 employees under one roof, all applying their expertise in processing, painting and assembly. This ensures that our high standards of quality are maintained, and that everything is produced under conditions that respect our workforce and the world around us.

Montana system

5.7

**“What are you creating? If your answer is ‘solutions’, then this is an ending.
But if you answer: ‘I am creating possibilities’, then it is an opening.”**

Peter J. Lassen. Designer and Founder

When Peter J. Lassen developed the Montana System, there was a detailed mathematic and philosophical principle behind it. The mathematic calculations are complex and based on 5.7 cm, but the philosophy is quite simple: Every Montana element should be able to be infinitely combined and be practical, good-looking, durable and independent of changes in fashion. That is the way it has been since 1982, and that is the way it will stay.

**Since 2007, we have
exclusively used
water-based lacquer
colours, which neither
smell nor contain
harmful solvents**

At Montana, we take our environmental responsibilities seriously. Over 25 years ago, we introduced our own set of environmental accounts in consultation with The Danish Environmental Protection Agency and became one of the first Danish businesses to run 'cradle-to-cradle' analyses of the environmental consequences of a given product. Since 2007, we have exclusively used water-based lacquer colours, which neither smell nor contain solvents. Montana carries the Danish Indoor Climate Label, and Montana is certified in accordance to international environmental standards.

Ideas for you

On the following pages, you will find the Montana Collection III, which is our take on ready-made solutions. Use them as inspiration to create your own personal space, or order them just the way they are. All you have to do is to choose between our 42 lacquer colours and 4 different positions.
