

TUBBY TUBE

TUBBY TUBE TABLE

Design by FAYE TOOGOOD

Clear, no-nonsense lines and a sturdy steel frame. Faye Toogood has an eye for removing clutter, and her sculpted designs celebrate the rural past even as they partake of the urban contemporary and look towards the future. You can see this trademark fusion of traditional and contemporary in the way the sheer lines of the table top (17 mm thin, of Oregon pine, black or Navy Blue stained ash) seem to float above the subtly rounded black steel or raw aluminum frames. The TUBBY tube dining table, builds on the motifs of the same designer’s iconic SPADE chair, with tubular legs that evoke the down-to-earth strength and practicality of garden implements. A distinctive and enduring artefact that would suit your dining room, or your meeting room.

FAYE TOOGOOD (UK) has an eye for the raw, natural and irregular. Her trademark, numbered ‘Assemblages’ steer away from the formulaic and clichéd, opening up a space for exploring fresh materials and processes. Faye was born in the UK in 1977 and graduated with a BA in the History of Art in 1998 from Bristol University. She founded “Studio Toogood” in 2008 and “Faye Toogood” in 2010, both in London.
