Elegantly Minimalistic with References to Nature

The Tub Lamp collection is designed with a universal and simple design. The collection comprises three pendant lamps in varying sizes as well as an elegant wall lamp. The lamps find common ground in clean, modern lines, which lend the lamps a timeless aesthetic, making them suitable for a diversity of interiors and settings.

The design of Tub unites inspiration from nature with the minimalistic aesthetic characteristic of Nordic design. Taking center stage, the main feature of the Tub Lamp collection is the generous lampshade which, besides its aesthetic appeal, encapsulates the light and emits a pleasant, uniform glow. The references to the organic shapes of nature are evident in the smooth merge of lampshade and cord. The slightly curved top of the lampshade elegantly grows into a stem, from which the electric cord is wired, presenting a decorative detail reminiscent of the silhouette of an apple or other of nature's many fruits and plants. The cord and stem seemingly grow together, making the lamp and cord seem like one coherent unit. Tub Wall Lamp comprises the same characteristic features as its pendant siblings. The lampshade is held by an elegant aluminum arm, making space for the same stem-inspired feature as the pendant lamps. For added flexibility, the wall lamp has a free range of movement in all directions.

Crafted from spun aluminum, Tub is available in three appealing finishes with color-coordinated fabric-covered cords: Brushed aluminum with a grey fabric cord, Black powder coated aluminum with a black fabric cord and White powder coated aluminum with a white fabric cord.

Connecting People and Spaces

Since Normann Copenhagen's foundation in 1999, our ambition has been to challenge conventional thinking and make the ordinary extraordinary through great design. By combining the craftsmanship, functionality and endurance characterized by our Danish design heritage with modern silhouettes and durable materials, we aim to create original products in a contemporary design that withstand the test of time. We believe in uniting people and spaces across the world and improving the quality of people's lives through the power of great design. Our products combine functionality and design and accommodate the diversity of needs of modern life in residential and professional interiors alike.

ENGLISH IMPORTANT

Always shut off power to the circuit before starting installation work. In some countries electrical installation work may only be carried out by an authorised electrical contractor. Contact your local electricity authority for advice.

DEUTSCH WICHTIG!

Vor der Installation den Strom abschalten. In einigen Ländern dürfen Elektroinstallationen nur von autorisierten Elektrofachleuten ausgeführt werden. Im Zweifelsfall die örtlichen Behörden ansprechen.

FRANÇAIS ATTENTION !

Toujours couper l'alimentation au panneau principal avant de procéder à l'installation. Dans certains pays, l'installation doit être en savoir plus, contacter les autorités locales compétentes en la matière.

NEDERLANDS BELANGRIJK!

Schakel de stroom altijd uit voordat met de installatie wordt begonnen. In sommige landen mogen elektrische installaties alleen worden uitgevoerd door een bevoegd elektricien. Neem daarom contact op met de plaatselijke overheid voor advies.

DANSK VIGTIGT!

Sluk altid for strømmen, før installationen påbegyndes. I nogle lande må elektriske installationer kun udføres af en uddannet elektriker. Få oplysninger hos de relevante myndigheder.

ÍSLENSKA MIKILVÆGT

Sláið rafmagníð úr áður en uppsetning hefst. Í sumum löndum þarf uppsetning að vera framkvæmd af löggiltum rafvirkja. Leitið ráða hjá rafvirkja varðandi uppsetninguna.

NORSK VIKTIG!

Elektriske installasjoner skal utføres av elektriker. Steng av strømtilførselen til strømkretsen med riktig sikring før installasjonsarbeidet påbegynnes.

SUOMI TÄRKEÄÄ!

Katkaise aina virta pääkatkaisimesta ennen asennuksen aloittamista. Joissakin maissa asennuksen saa tehdä ainoastaan ammattitaitoinen sähköasentaja. Ota selvää paikallisista määräykistä.

General instructions

Please note the information contained in these instructions and save this manual, also when the lamp is already mounted.

Safety precautions:

- Electrical connections may only be carried out by qualified staff.
- The manufacturer does not accept responsibility for injuries or defects caused by improper use of this lamp.
- Attention! Before starting the installation, disconnect the power by turning off the circuit breaker, or by removing the fuse at the fuse box.
- Mind to use this lamp for its predetermined function. For example don't mount indoor lamps in outdoor areas.
- Please check all components are complete before installing.
- Don't cover the lamp.
- Don't connect the lamp to power and don't switch it on when it's in packing.
- Bulbs and transformers get very hot during operating. At improper use there is the risk of fire and by changing the bulb you can hurt yourself. Always let cool down!
- If the external flexible cable or cord is damaged, it shall be exclusively replaced by the manufacturer or his service agent or a similar qualified person in order to avoid a hazard.
- Please ensure that the specified bulb type and power of bulb is used. The maximal wattage shouldn't be exceeded (find the bulb symbol and the "max ... W" on rating label or on lamp).
- Do not mount the lamp on wet or conducting background.
- Make sure that the cables or cords don't get damaged during installation.
- The given main voltage (220-240V ~ 50/60Hz) shall not be exceeded.
- Plug and connection elements must be free of tensile strength and torsion force.
- Don't touch bulbs with bare hands.
- If the product is damaged, please contact Normann Copenhagen for replacements.

Maintenance instructions:

- Before cleaning, disconnect the power by turning off the circuit breaker, or by removing the fuse at the fuse box.
- Mind to clean the surfaces of lamp only.
- Wetness shouldn't get in terminal box or to any conducting part.
- Before you start to clean let it cool down for 10 minutes!
- Cleaning with a soft dry cloth only.

Advice for environmental care:

Please don't dispose of this article in normal domestic waste after the end of its lifecycle.

Instead, we advise that you dispose of it according to local environmental laws for waste disposal.

The materials are recyclable according to their specifications. With the correct recycling of these materials, you can make a significant contribution to environmental protection.

Ask your local authority for next staging area.

CE marking:

By affixing the CE marking to a product, a manufacturer declares that the product meets all the legal requirements for CE marking and can be sold throughout the European Economic Area (EEA).
