A welcoming family of versatile outdoor furniture pieces

Normann Copenhagen introduces Vig, an exquisite outdoor furniture collection meticulously designed to enhance any outdoor space. Combining timeless beauty with exceptional functionality, Vig is the ideal choice for enduring outdoor furniture and will integrate seamlessly in natural landscapes and urban environments alike.

The versatile Vig collection offers a range of stackable outdoor furniture, enabling endless possibilities for creating inviting and flexible seating areas. From comfortable dining chairs to inviting lounge chairs, elegant chaise longues, versatile benches, stylish barstools, and adaptable tables in various sizes, Vig offers a comprehensive selection to suit different outdoor settings and preferences.

Designed to integrate seamlessly with its surroundings

The design emerged from a desire for a sturdy structure with an airy and welcoming expression. The seamless union of the legs and seat presents a spacious composition that invites you to indulge in ultimate comfort. With optional armrests boasting a distinctly alluring design, Vig embraces you with open arms, exuding warmth and hospitality. This unique detail adds an approachable and friendly feeling to the design.

Every curve and contour of the design is an homage to the organic, flowing forms and silhouettes of nature. Soft, rounded edges evoke a sense of natural harmony, making the collection's intended outdoor usage apparent, the design fashioned to fit gracefully into a diversity of outside settings.

Crafted to last

Made from double powder coated steel for enhanced durability, Vig is built to withstand the rigors of outdoor use while maintaining its pristine appearance. Each piece in the collection has been thoughtfully designed to ensure resilience and longevity, encouraging years of good use in all weather conditions. In addition, a distinctive feature of the Vig collection is the integration of Robinia (Black Locust) wood, featured on the collection's tables and available as an optional choice for the seating range. Robinia, or Black Locust, is renowned for its exceptional strength, durability, weather resistance and remarkable resistance to decay, requiring minimal maintenance while maintaining its natural beauty. The combination of steel and Robinia offers an elegant blend of materials, further enhancing the collection's aesthetic appeal.

”The Vig collection was designed with the vision of creating outdoor furniture that is not only visually appealing but also functional and long-lasting,” says designer, Simon Legald. ”By incorporating Robinia wood and double powder coated steel, we have ensured that each piece in the Vig collection offers exceptional durability and resistance to outdoor elements. In addition, we have considered the collection’s convenience, focusing on making the majority of the pieces stackable”.

With its timeless design and sturdy construction, Vig is the ultimate addition to any outdoor space, whether it’s a cozy balcony, a spacious patio, or a lush garden for cafés, museums, restaurants as well as residential settings. The collection is meticulously crafted to elevate outdoor living experiences, intended to be a focal point of enjoyment for years to come. Vig comes in three timeless powder coated finishes of Green, Black and Grey ensuring an effortless and elegant integration with any outdoor setting.

Connecting People and Spaces

Since Normann Copenhagen's foundation in 1999, our ambition has been to challenge conventional thinking and make the ordinary extraordinary through great design. By combining the craftsmanship, functionality and endurance characterized by our Danish design heritage with modern silhouettes and durable materials, we aim to create original products in a contemporary design that withstand the test of time. We believe in uniting people and spaces across the world and improving the quality of people's lives through the power of great design. Our products combine functionality and design and accommodate the diversity of needs of modern life in residential and professional interiors alike.
