

Cross

Shelving system

designed by etc.etc.

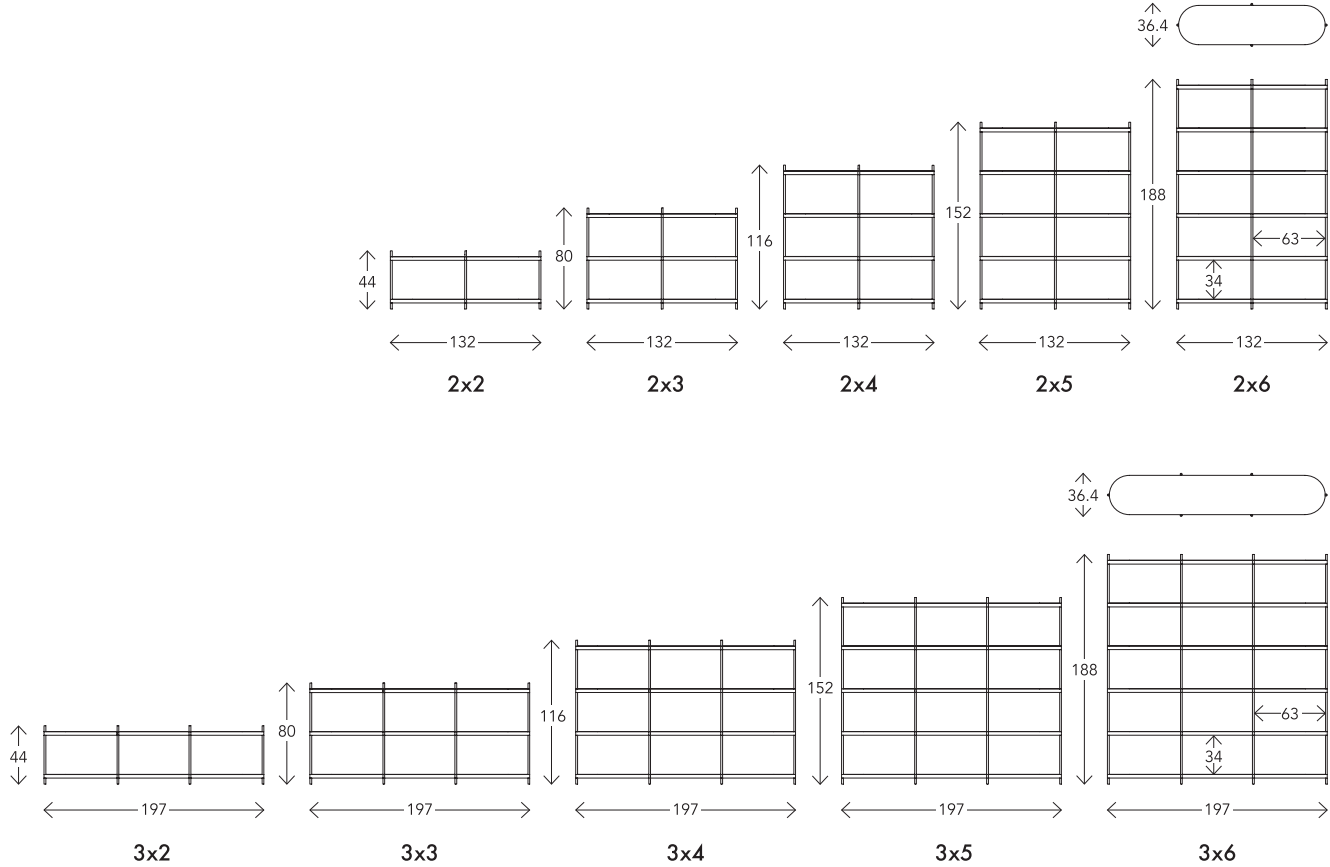

**Cross – a stylish residence
for your lovely items with a
very long shelf life.**

The Cross shelving system contains minimal, graphic, and transparent construction, produced with high accuracy, and can be used against the wall or even as a room divider. Design, that perfectly interacts with various spaces and suits the interior of every home or office, was inspired by multiplane aircraft models.

Light and airy shelves are to store and display, where things feel comfortable and appreciated.

Technical data.

Materials:
Powder-coated steel frame, veneered or painted MDF.

Process:
User-friendly assembly with no tools or screws required, as it is held together simply by gravity. Powder-coated steel frame and CNC milled MDF board, which comes in two options: painted or lacquered veneer. Modules configurable to various lengths and heights. Legs can be adjusted to fit uneven floors.

Cross is available in colors:
