## Specification notes

The innovation of light sources is ongoing. Consequently we only inform about the max. wattages. On [www.louispoulsen.com](http://www.louispoulsen.com) we update a list of recommendable light sources.

## Information

Please note that the copper surface is untreated in order to achieve a verdigris finish over time. This can result in an inconsistent surface finish prior to the product achieving full patina. This process might have begun already during stocking/ transportation.

# Product description

The fixture is designed based on the principle of a reflective three-shade system according to PH's logarithmic spiral.  
The size of the three shades is adjusted for optimum performance and comfort.  
A straight wall arm mounted in a round wall box holds the fixture.  
The surface will change/patinate over time according to the environmental conditions of the air.  
Is a member of a product family for both outdoor and indoor.  
Iconic design.
