# Making room for personality

**Montana**

Don't  
judge  
a  
colour by  
its  
colour.

## ***INTRODUCING***

*30 new poetic nuances created in  
collaboration with Margrethe Odgaard*

***COLOURS ARE NEVER STATIC,  
NEVER BORING,  
NEVER QUITE THE SAME***

*Every 8th year, Montana introduces a fresh, new colour palette. This year, we've created 30 new nuances in close collaboration with designer and colour alchemist, Margrethe Odgaard.*

Colours are never static, never boring, never quite the same. Which is why we're inviting you to not judge a colour simply by its colour. The tones in the palette are changeable, deep and nuanced. They interact with sunlight, with other colours in their surroundings, with all the items you add to them – and they can take on very different appearances depending on where you place them.

Adding the 30 new tones to our classic palette, we're presenting a total of 42 variants to choose from. All colours are related in a close-knit family, so you can combine them any way you like and always get a match – living up to our core philosophy of always giving you the freedom to express who you are.

## **THE COMPLEXITY OF COLOURS**

Creating the new colour palette has been a careful and thorough creative process and the result is a range of poetic and complex colours, all created to appeal to both your visual sense and your emotions.

*Margrethe Odgaard*

Margrethe Odgaard is an award-winning Danish designer. Her work is driven by a persistent exploration into the world of colours – a speciality that has led to her unofficial title as The colour alchemist.

***Colours are light and light is life.***

*“Light is the energy that can lift us up and carry us forward. As humans, we’re nourished by our surroundings. Colours constitute energies and moods, and play an unconscious role in creating a good atmosphere.”*

**Margrethe Odgaard**

### ***FIVE GENERATIONS OF DANISH DESIGN***

Joakim Lassen is the fifth generation of his family to work with furniture and the great grandson of furniture manufacturer Fritz Hansen. Today, he is Managing Director of Montana. With a background in cultural geography and a career as environmental consultant sustainability has a high priority.

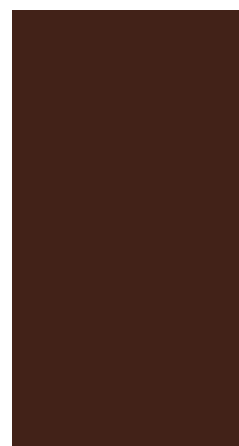

## ***A LITTLE DROP OF CRAZY NEVER HURT ANYONE***

### **Block Colours**

Step into powerful contrasts and strong, bright colours. Radiant spice markets. Eclectic architecture. Bold style icons. Monarch, Black Jade, Hazelnut, Iris and Balsamic are here to brighten up your surroundings and fill your home with a vibrant and energetic ambience. Blending strong colours with muted tones will create the maximum punch. Like a welcomed kick in the eye on a grey day.

All nuances work together as a close-knit family so you can mix and match as you please, and create the balance that's just right for you.

***I've tried to create a colour palette  
that's highly tangible.***

*"It's filled with vivid and bright colours, but still  
naturally balanced. This means that all the colours  
work well together and also have a very distinctive  
kinship with the natural materials we use in our  
homes; stone, leather, wood and plants."*

in its expression. He insisted on a darker red,  
and today I’m really happy about that because  
it adds a wonderful depth to the palette.”*

# Montana Free

## Shelving System

Montana Free shelving system consists of 12 standard compositions that you can choose with an optional interposed shelf. Optional, vertical textile panels allow you to play with colours and expressions, create personalised screens between rooms, and alter the transparency of the shelving as desired. Design by Jakob Wagner.

### ***A PHILOSOPHY OF FREEDOM***

Montana is a family-owned, Danish company that proudly delivers on quality, craftsmanship and long-lasting products – while offering you endless possibilities to create the look that's just right for you.

In 1954, naval officer Peter J. Lassen followed his curiosity into the furniture industry, where he worked with renowned Danish architects and designers such as Arne Jacobsen, Jørn Utzon, Piet Hein and Verner Panton for many years, before he founded Montana Furniture in 1982.

Montana is based on his philosophy; that every one of us has a need for freedom and a natural desire to create our own personal spaces.

## **Danish design.**

*Danish manufacturing.*

All Montana modules are designed, developed and made in Denmark. Every day, over 160 professionals work hard to uphold the highest standards of processing, painting and assembly. Nothing leaves our factory in Haarby, without having been manually inspected and approved, ensuring that every Montana piece has the correct colour, jointing and craftsman's touch.

### ***EVERY DETAIL MATTERS***

We cherish the virtues of traditional craftsmanship and we do things properly.

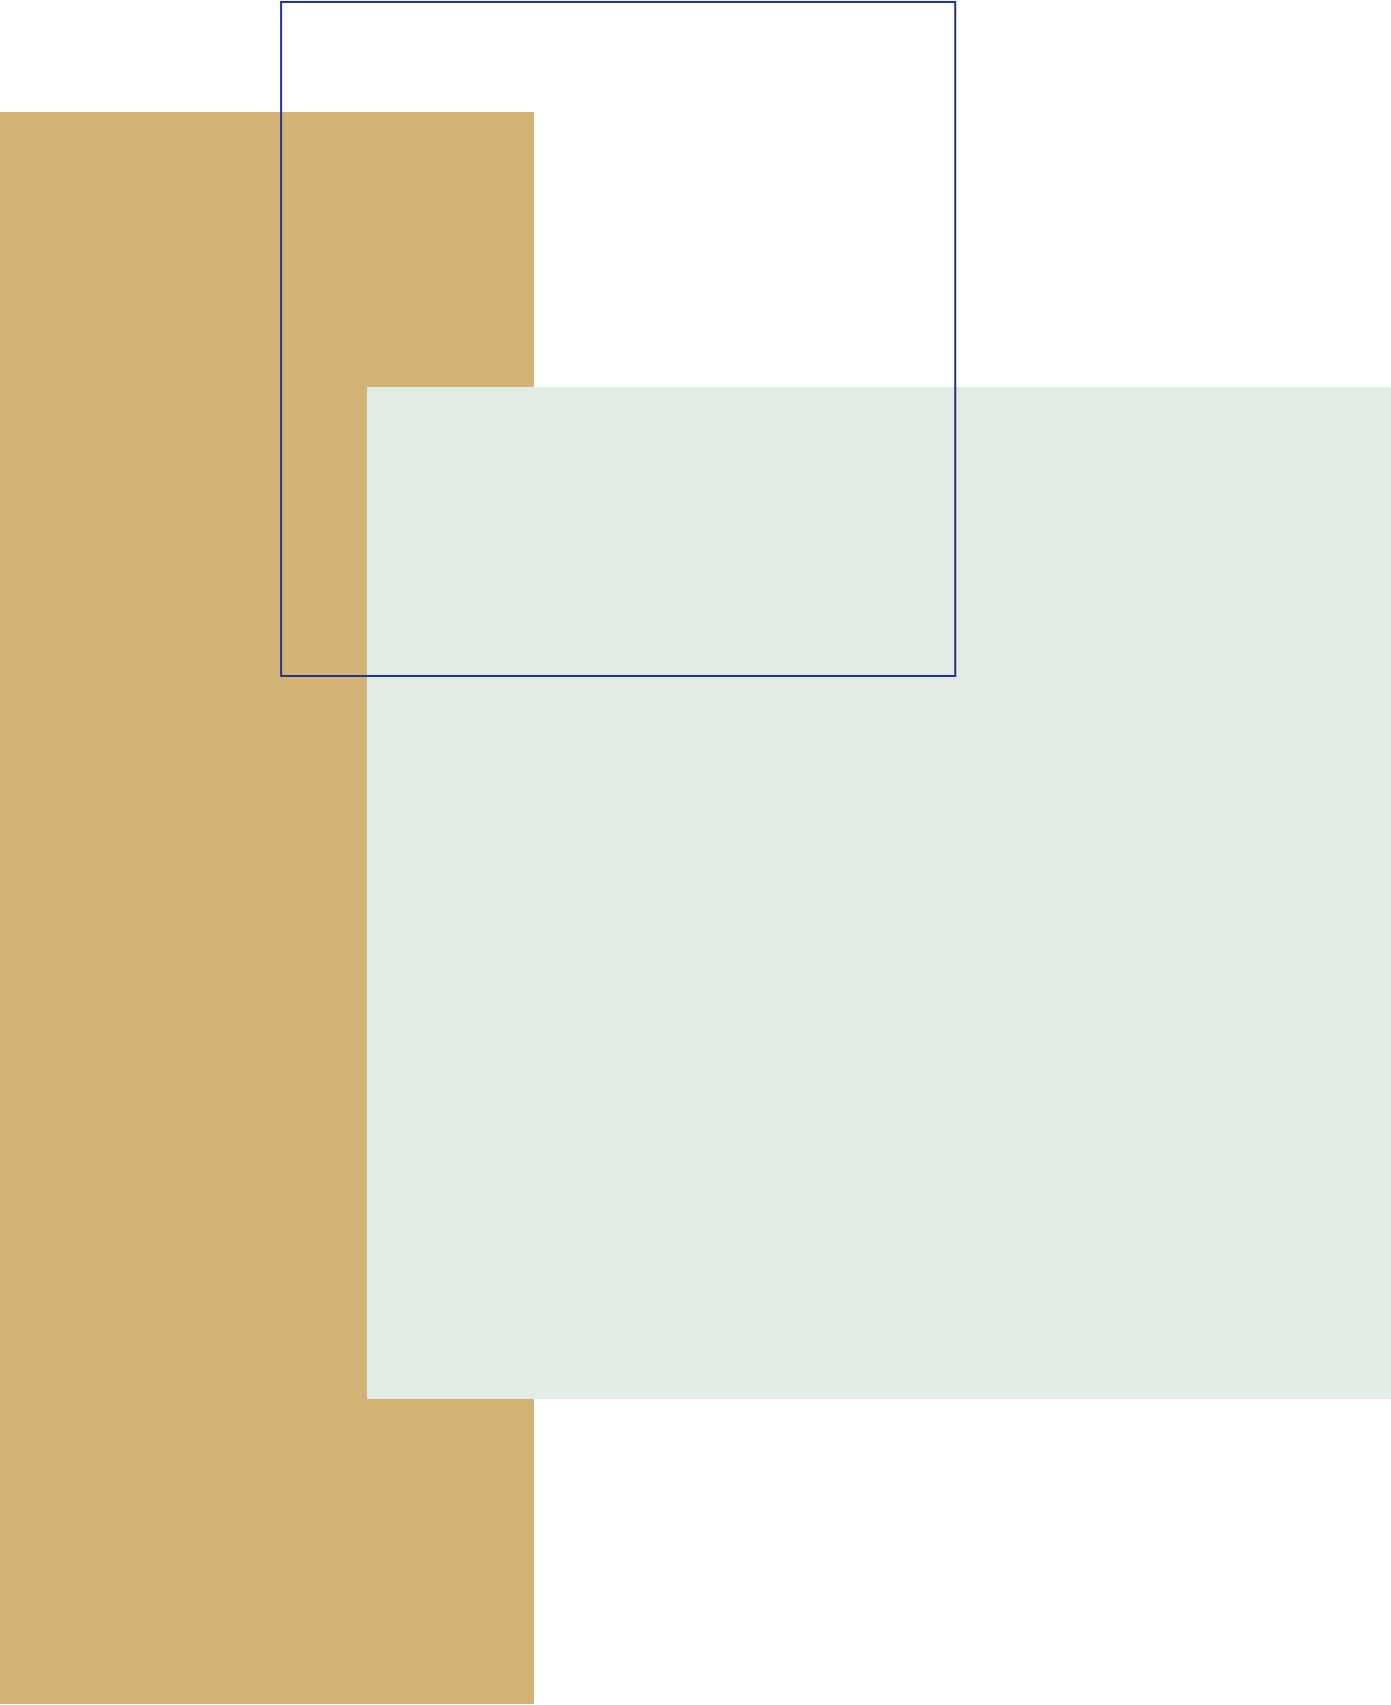

Every Montana module is created from scratch and built with pride.

## ***A SWEET FLORAL ROMANCE WITH A TWIST OF KAPOW***

### **Girly Blooming**

Rhubarb, Cumin, Mist, Oat and Iris all have a distinct dash of decadence that sparks a vibrant feeling of pure life. Fancy cocktails. Striking colourful dresses. Summer all year long. The bright and joyful tones can take you all the way from soft, floral romance – to loud, colourful kapow. Where you decide to go, is all up to you.

All colours are intertwined and closely related. You can combine them in numerous ways to get the expression that feels just right for you. The more, the merrier.

**Safe for you.**  
*Safe for the environment.*

*At Montana, we take our environmental responsibilities seriously.  
For us, sustainability is using high-quality materials and robust  
craftsmanship to produce long-lasting products. Long-lasting  
products that are neither harmful to you nor the environment.*

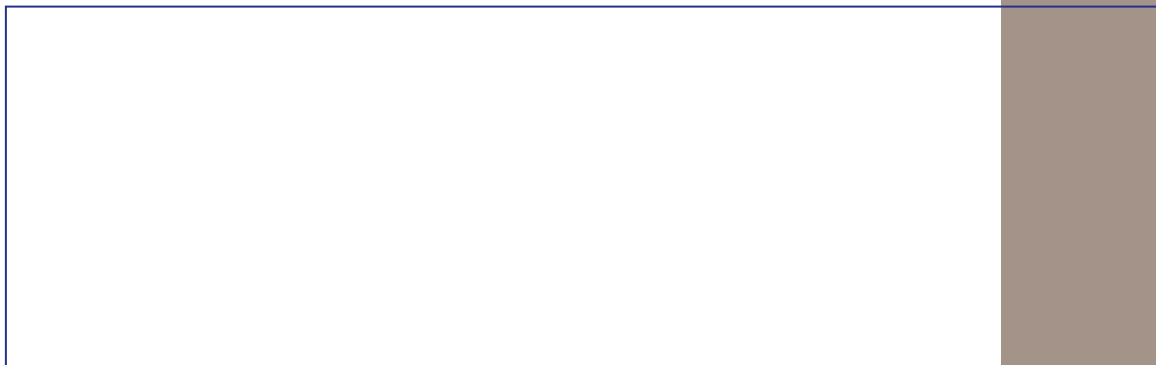

Since 2007, we have exclusively used water-based lacquer colours, which do not contain any solvents harmful to you or the environment. Our modules carry the Danish Indoor Climate Label, and recently, we obtained the prestigious EU Ecolabel and became one of the first furniture brands in Europe to hold this official European certification. The Ecolabel applies to the entire Montana System, CO16 and the Montana Free Shelving System.

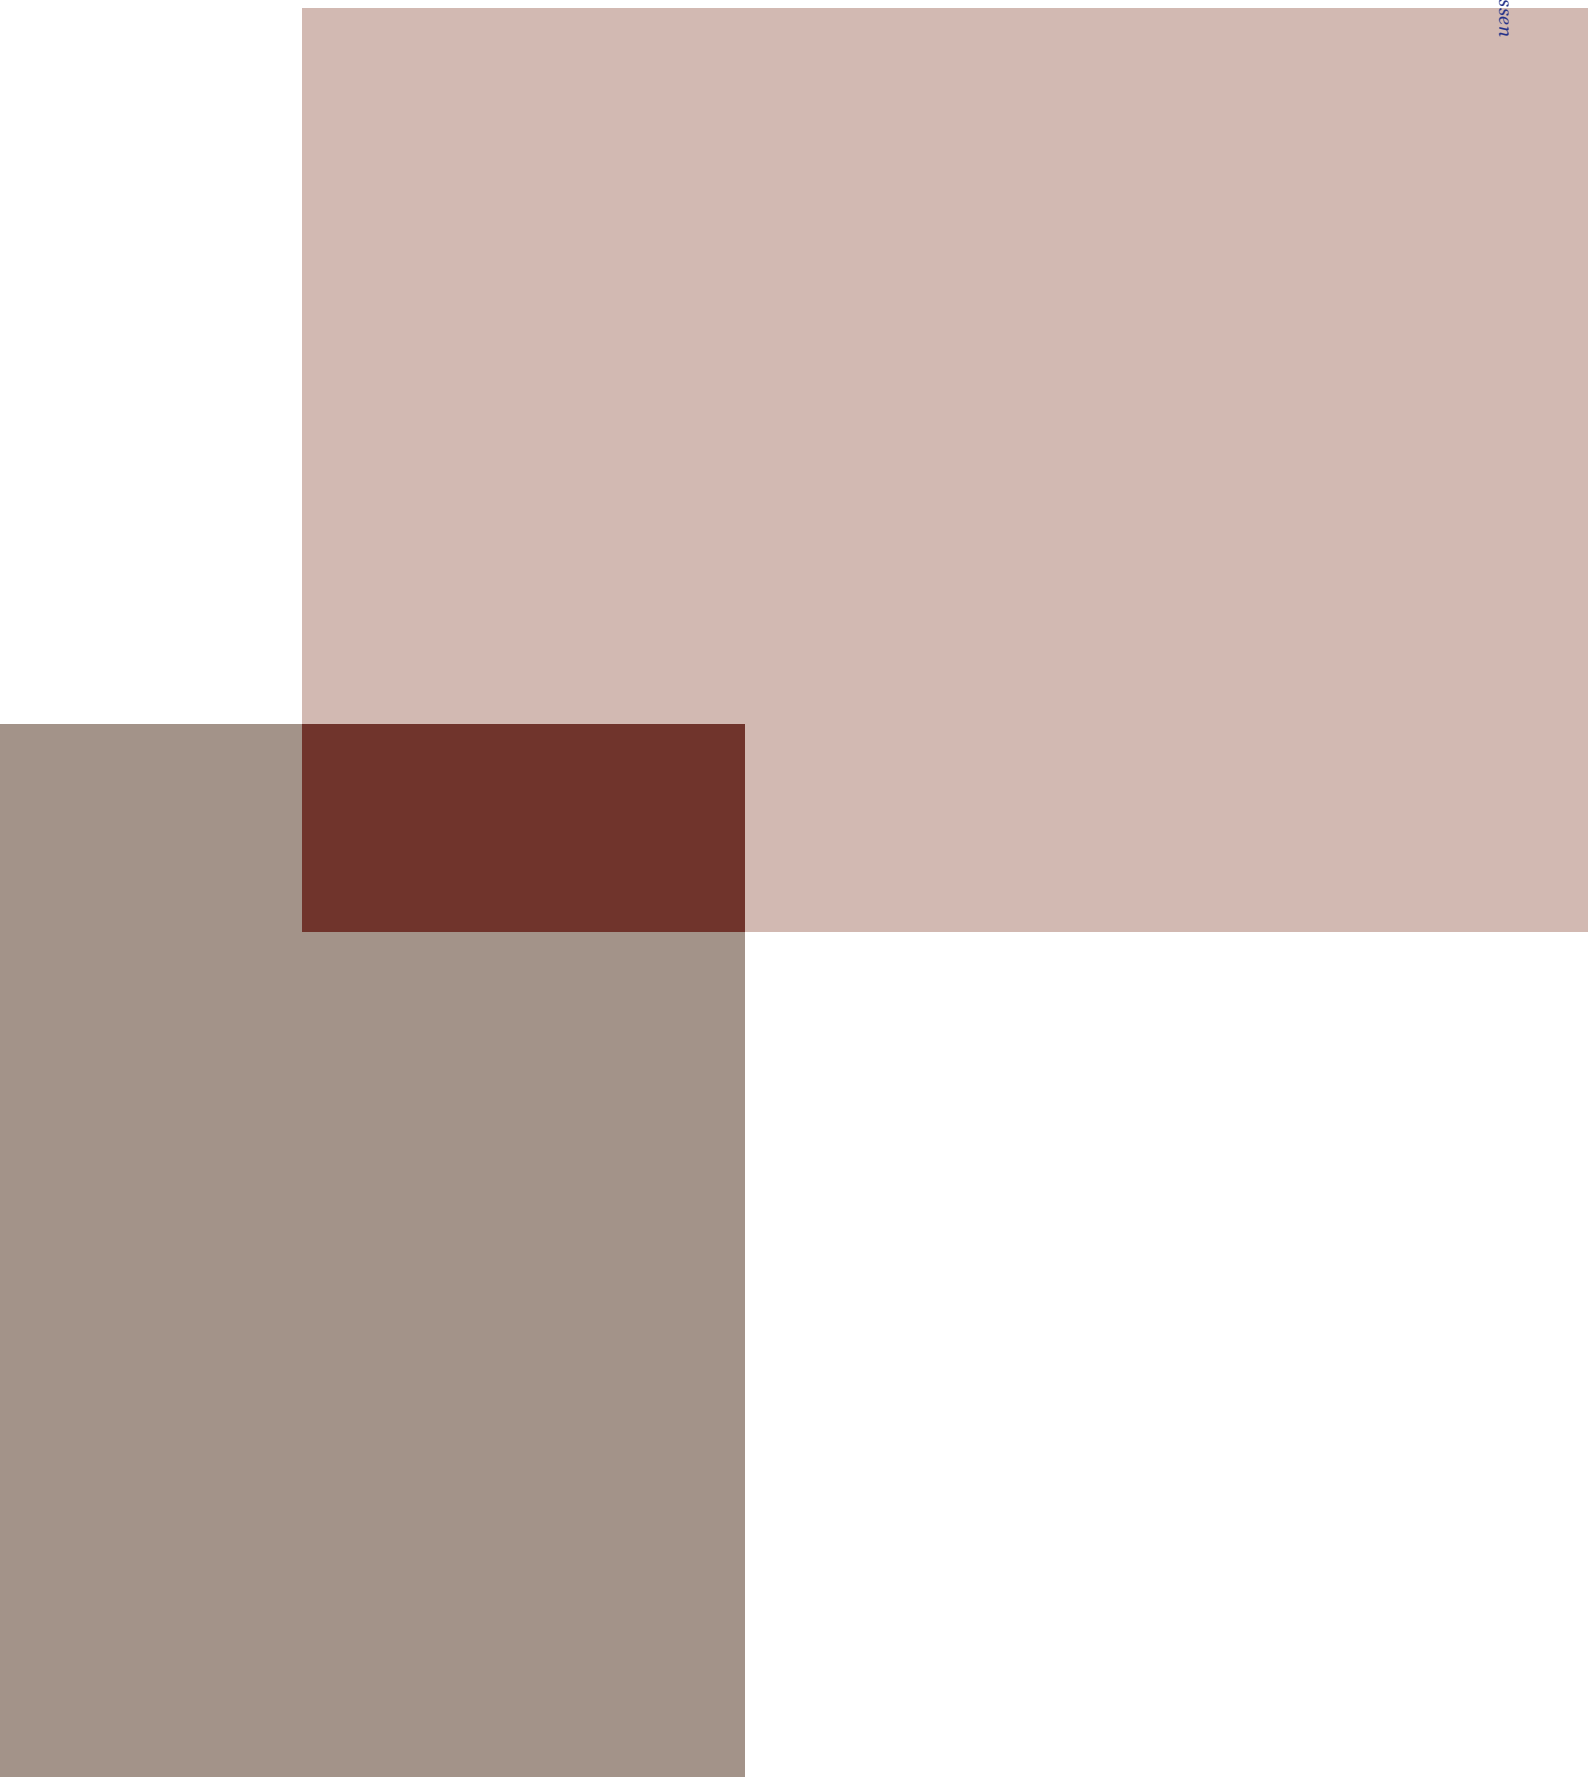

# *A WARM EMBRACE OF NATURE*

## **Natural Gradient**

Soft organic gradients and natural materials in a calm, muted medley, eagerly waiting to embrace us all. Mushroom, Truffle, Oyster and Masala will bring the outdoors in and create a calm, reflective atmosphere of home. Wheat fields swaying in the sun. Beaches in autumn. Mother Nature's finest.

You can combine the soft pastels and natural tones almost endlessly. No matter the mix, they will serve as a steady base for all other naturals; leather, wood and luxuriant green plants.

and answer boldly. Much like in real life, the truly  
great experiences rarely come from always  
playing it safe.”*

**Turmeric & Juniper**

## *Camomile*

HIGH GLOSS SMOOTH

Camomile is always a pleasure. A soothingly smooth, calm tone that naturally attracts light – and attention. It doesn't shout or boast, though. It's just there.

Like a little, warm sun.

*Balsamic*

SEMI GLOSS SMOOTH

Balsamic is deep, dark and brown with a subtle hint of red. It looks thick, lavish and edible with an almost tactile softness.
