# Africa

Design by Francisco Gómez Paz.

An object of desire, Africa is a unique gift that combines richness of form and materiality with high performance lighting capabilities. A holistic exploration of beauty, functionality and the essence of humanity.

“Africa was born as a response to the latest ways of inhabiting, in which the hybridisation of residential and professional spaces is increasingly nomadic, free, and casual”.

Francisco Gómez Paz

Portable

Battery capacity  
10.000mAh.

Battery voltage  
3,7V.

Battery autonomy:  
6,5h at 100% Intensity.  
10h at 66% Intensity.  
20h at 33% Intensity.

Its chargeable LED light source provides three levels of intensity which are controlled by a simple push button at the head.

To recharge the luminaire, the shaft slides seamlessly into a magnetised charger a flawless continuation of its sculptural expression.

Thanks to its high flow lighting, the Africa collection is the perfect companion for detailed task work.

Defined by a slender, conical stem that leads to a neat head, Africa invites you to reach out and grasp it. Available in two sizes, its lacquered matte texture and four natural tones bring warmth and tangibility to the design. Shaped from a single unit of pure aluminium, this mono-materiality lends it a certain weight and technical quality associated with high-end industrial processes. The ancestral, anthropological quality of its discreet silhouette will create a striking statement in any kind of space, public or residential. Its aesthetic versatility is complemented by adaptability: accent a forgotten corner, illuminate a work space, or enjoy a romantic meal with a soft glow.

- 24 Beige M1 (NCS S 2005-Y50R)
- 25 Beige D1 (NCS S 4005-Y50R)
- 29 Brown D1 (NCS S 8005-Y50R)
- 38 Terra Dark (NCS S 5040-Y70R)

Body: Aluminium.  
Diffuser: Polycarbonate.

LED 2700 K. CRI >90.  
Control:  
Push.
